# THE SOCIETY

We are pleased to introduce European Society of Gynecology Public's 2023 Annual Report, which gathers a year of activities and programs for the Society.

After the pandemic we had to find new ways to achieve our mission to promote the advances in the gynaecology, obstetrics and reproductive organs medicine, to promote contacts and exchanges among HCPs and to increase knowledge and skills of specialist obstetricians and gynaecologists in the European Countries.

We faced those challenges head-on, continuing to deliver our biannual congress, our scientific journal EGO and a new free webinar program.

# THE CONGRESS

Our biannual congress represents the Society's foremost event marked by substantial participation, thematic richness, and global impact.

Occurring between November 29th and December 2nd, 2023, in Amsterdam, this event convened distinguished leaders in gynecology, obstetrics, and reproductive health.

Through an immersive scientific program, these experts disseminated knowledge, sparked inspiration, and engaged delegates coming from diverse global regions.

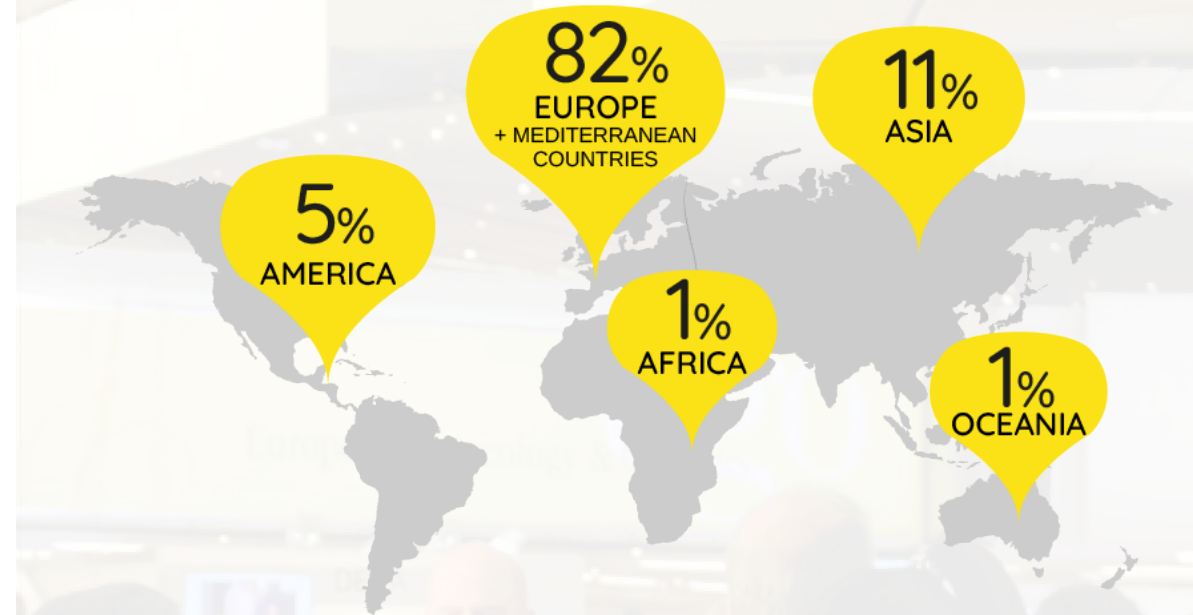

# AUDIENCE

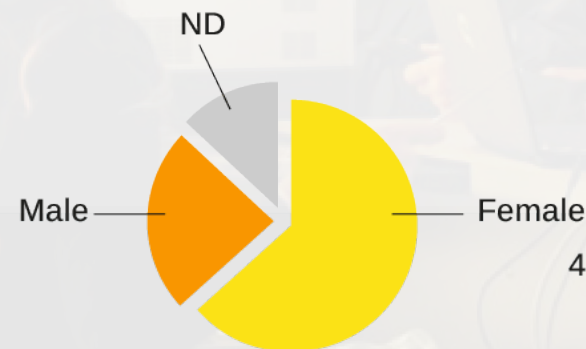

In its 15th edition, the ESG congress marked a successful four-day event, witnessing a good turnout of 663 delegates representing all five continents.

Participants, spanning from 21 to 88 years old, exhibited a diverse demographic, with 53% identifying as female.

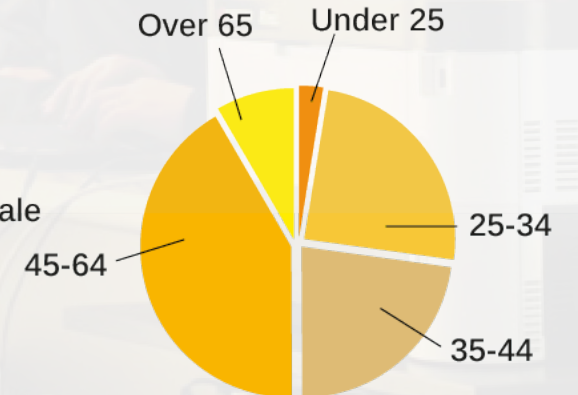

## PARTICIPANTS BY REGION

## PARTICIPANTS BY SEX

## PARTICIPANTS BY AGE

# THE PROGRAM

77 esteemed international experts are confirmed to participate, presenting an exceptional opportunity for discussions and feedback.

The scientific program comprehensively covers all pivotal aspects of Women's Health.

Attendees delved into clinical challenges encountered in routine practice, explored effective treatment methodologies, and engaged in discussions on the most pertinent topics alongside esteemed experts and participants.

All sessions were recorded and provided online to everyone who registered for the congress.

The 2023 ESG congress  
was supported by 14 companies with:  
11 Sponsorships  
3 Unrestricted Educational Grants

# EXHIBITION AREA

We hosted 11 booths into the Exhibition Area

# ALICE AND ALBERT NETTER PRIZE

## 2023 Edition

The Alice and Albert NETTER Prize aims to recognize innovative research in the field of Gynecology. Its primary goal is to encourage and inspire young researchers by fostering both research initiatives and creativity.

The prize encompasses clinical and epidemiological studies as well as fundamental research within the field of medical gynecology. In 2023, two prizes of 5,000 euros each were granted—one for outstanding clinical research and another for exceptional basic research in the field.

## THE FINALISTS

Dr. Baradwan Saeed  
Marzoq

Dr. Cacciottola Luciana  
Dr. Caretto Marta  
Dr. Douxfils Jonathan

Dr. Massimello Francesca  
Dr. Mawet Marie  
Dr. Rusidze Mariam  
Dr. Singh Yandana

## THE WINNERS

**Chronotype: A Tool to Screen  
Eating Habits in Polycystic  
Ovary Syndrome?**

Dr. Giovanna Muscogiuri

**Hysteroscopic  
Grasper Development**

Dr. Salvatore Giovanni Vitale

# EGO JOURNAL

Our open access journal offers comprehensive coverage of cutting-edge developments and emerging technologies within the domains of Gynecology, Obstetrics, Reproductive Medicine, Feto-Maternal Medicine, Basic Science, Pharmacology, Epidemiology, Metabolism, Oncology, Ultrasonography, Endocrinology, Psychosomatic Medicine, Sexology, Gynecological Surgery, Endoscopy, Female Ageing, Ethics, Quality of Life, and all facets of Women's Health.

The journal plays a pivotal role in disseminating the latest information and advancements pertinent to these fields. It serves as an indispensable resource supporting education and training across all aspects of Gynecology and Obstetrics.

## TOP 5 ARTICLES

- 1 Female stress urinary incontinence: treatment options and main challenges
- 2 Hormone therapy for menopause: why should it be prescribed?
- 3 Vaginal microbiome and a prospective analysis of vaginal microbiome testing and personalized probiotics supplementation as a beneficial approach to unlock optimal health for women: a narrative review
- 4 Laser in Gynecology
- 5 Non-ablative vaginal erbium laser treatment of patients with cystocele and stress urinary incontinence - a retrospective study

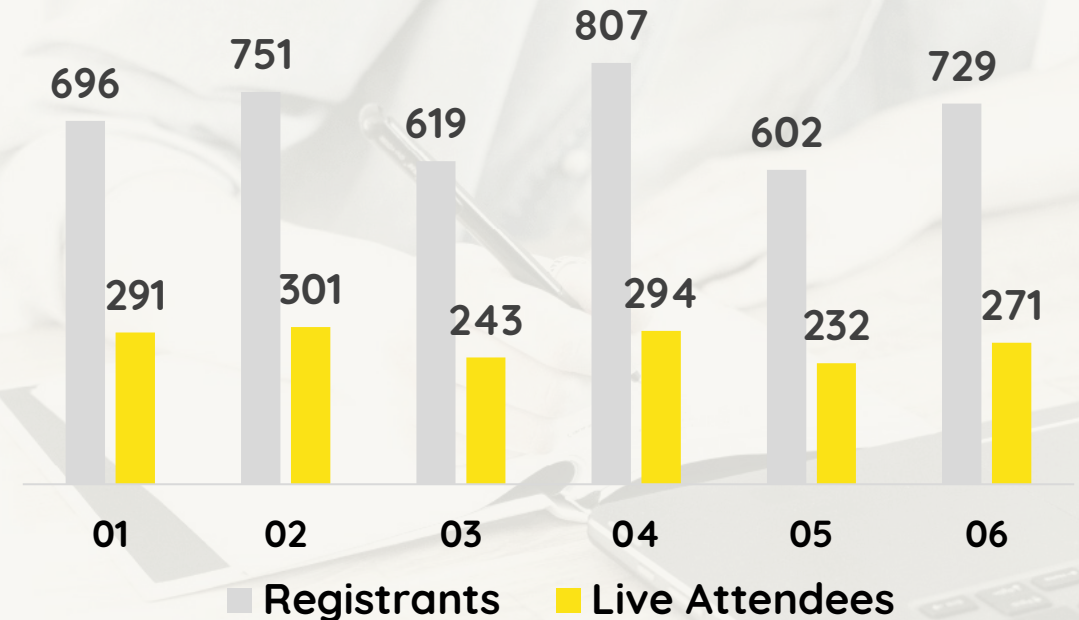

# ON LINE EVENTS

This year, the ESG introduced a complimentary online updating program tailored for healthcare professionals in women's health.

Featuring two keynote speakers every month, this program focuses on enhancing knowledge and fostering professional development in daily clinical practice. Participants can actively engage in live question and answer sessions, ensuring interactive learning experiences.

These monthly resources offer invaluable insights, addressing an extensive array of topics such as Breast Cancer, IVF, Pregnancy, Hypothalamic Amenorrhea, Gynecological Oncology, Genital Infections, and numerous other subjects.

**01** Luteal Phase in IVF Cycles

**02** Progestogens in Luteal phase supplementation and HRT

**03** The role of juvenile hormones in women from adolescence to old age

**04** Functional Hypothalamic Amenorrhea

**05** Debate on: Should all pregnancies be induced at 39 weeks'?

**06** Management of menopause in Breast cancer survivors

# 2024: Bold Projects, Bright Perspectives

Ensuring the Society remains a welcoming and inspiring organisation for people across disciplines, backgrounds and ages globally, is key to the society's future.

From an education standpoint, in 2024 we will be working on a **new complimentary webinar program**. With the ESG we will also be working on an **exclusive learning series** devoted to society members to enhance gynecological education.

On September 20th–21st, 2024, Cracow will host the **10th Alice and Albert Netter Days**. The objectives of the conference include strengthening connections between the ESG and national gynecology and obstetrics societies and familiarizing gynecologists and obstetricians within each country with the evolving framework of European-wide medical gynecological concepts.
